

2026 CUPB CSCA Test Subjects for International Undergraduate Students

Note:

1. Applicants for Chinese-taught programs please be sure to select the Chinese language version of the CSCA test and cannot choose the English language version. Applicants for English-taught programs please be sure to select the English language version of the CSCA test.
2. The Professional Chinese Test is divided into two categories: Chinese for Arts and Chinese for Science. Applicants applying for programs taught in Chinese should take the professional Chinese test in the corresponding direction according to the category of the major they are applying for. Applicant applying for English taught programs (major in Petroleum Engineering, Chemical Engineering and Technics, Computer Science and Technology, International Economy and Trade, and English Language) are exempt from taking the Professional Chinese Test.
3. Please strictly follow the CSCA test subjects required by each major of our school when registering for the exam.
